

COMMUNITY UPDATE

From Mayor David Rutledge

11:30 am

The City of Bridge City's #1 goal is to always insure the safety of our citizens and first responders. Updated information is as follows:

Curfew

The curfew hours have been backed up until 10pm. With full restoration of electricity to BC & water-covered roads situation much improved, the curfew will now be 10pm-6am.

Mosquito control

The mosquito trucks will be spraying twice daily, beginning today.

Debris

I cannot stress this enough, PLEASE have your debris piled on the house-side of the ditch, as far away from gas and water meters as possible.

Many donation distribution sites remain in and around the city. And we will be forever grateful for the service, love, and support they have given to our community during Harvey's aftermath.

Myself and the other City officials and employees will continue to work diligently for our City as we begin the transition from relief to recovery.

Daily updates can also be viewed on the City of Bridge City website - www.bridgcitytex.com
or on the City of Bridge City Facebook page
