

COMMUNITY UPDATE

From Mayor David Rutledge

September 8, 2017 - 11:15 am

UPDATED INFORMATION ON PERMITS AND INSPECTIONS

- **HIRING CONTRACTORS**

ALL contractors must get a City license to do any work on flood-damaged homes in Bridge City. Before hiring a contractor, please ask to see their City license or call the City to verify that they do have a license. Beware of contractors requiring large payments before any work is completed.

- **PERMITS AND INSPECTIONS REQUIRED ON ALL WORK**

- **ISSUING PERMITS**

Non-flood zone area: Permits can be issued to residents in non-flood zone areas as soon as the moisture content on the studs has been checked. City inspectors will have the meters to check the moisture content. No one is allowed to cover up until this is done.

Flood zone area: Residents in flood zone area will have to wait until FEMA required inspections have been made. We are now working to get these requirements completed.

Daily updates can also be viewed on the City of Bridge City website - www.bridgcitytex.com
